The Apollo Hospitals Group is the largest chain in Asia and the third largest in the world. With over 10,000 beds & 50 hospitals in and around the country, a pool of the country's most sought after healthcare professionals and state-of-the-art medical technology behind it, Apollo is today well equipped to handle the healthcare needs of every Indian.

Over 4 million people above 60 yrs and over 6 million people across all age groups need help for knee disorders. The Apollo Knee Clinic provides a 360° approach to knee pain, right from prevention to treatment and rehabilitation.

Prevention and Early Diagnosis

Before beginning any treatment, it is essential that your doctor gets a clear picture of the knee's condition to make a diagnosis. To this effect, Apollo Knee Clinic offers two Knee Check programs.

Rediscover pain-free movement at

Accurate Diagnosis

The Apollo Knee Clinic provides advanced diagnostic modalities to help our team of internationally trained orthopedic surgeons pinpoint the cause of knee pain in every patient. These include the Advanced Knee Check and advanced arthroscopic procedures.

Effective Treatment

The Apollo Knee Clinic provides state of the art surgical facilities manned by a team of medical professionals exclusively trained to take care of knee surgery patients. Treatment options include knee replacement surgery and arthroscopic (key-hole) repairs.

Disease Management Program

The Disease Management program strives to improve and maintain people's health while reducing future complications from diseases. Your diagnosis and treatment will be monitored with monthly assessments of your knee's health. Physiotherapists will visit your residence* every month to review your adherence to the treatment, to ensure that your knee is well on its way to recovery.
